THE ROLE OF GOVERNMENT IN PROVIDING SUPPORTIVE SERVICES FOR THE ELDERLY

Of the various groups in American Society, the elderly are among those most affected by government's action or inaction. Beginning in 1935 with the passage of the Social Security Act, Congress has enacted over 56 programs aimed at improving the status and conditions of older persons. The responsibility for implementing these programs has been spread among 25 different Federal agencies.

To counter the effect of such widespread responsibility, Congress first enacted in 1965 and substantially amended in 1973 the Older Americans Act. Basically, the Act created a tri-level "Aging Network" that involves a specific agency of the Federal government, a designated agency of state government, and the local communities in planning and implementing services for the aged.

The "Aging Network" under the Older Americans Act and how it affects services for the aged in Montana is as follows:

1. The Federal Level: The Administration on Aging (A.O.A.) located in the Office of Human Development (O.H.D.) of the United States Department of Health, Education and Welfare (H.E.W.), is the responsible Federal agency in the network. AOA serves as the Government's chief advocate for the elderly, coordinates all Federal programs that concern the elderly, and allocates funds for all programs authorized under the Older Americans Act.

The relationship between AOA (including the Denver Regional Office), Montana's S.R.S. Aging Services Bureau and the seven Area Agencies on Aging was primarily established by the 1973 amendments to the Older Americans Act. AOA, through the Denver Regional Office, grants funds to Montana on the basis of an annual state plan. The state plan identifies statewide program objectives and is, for the most part, a collation of the individual plans submitted by the Area Agencies on Aging.

2. The State Level: The Aging Services Bureau, located in Montana's Department of Social and Rehabilitation Services, is the focal point of all programs for the aged in this state. The Bureau is the overall planner, coordinator and evaluator of all Federal and state funded programs designed to serve the elderly of Montana. By regulation, the only direct service that the state agency can provide is information and referral. Consequently, the primary role of the Aging Services Bureau is that of advocacy and state-level administrator of programs funded for the elderly. Through a staff of eleven, including field coordinators, the Bureau distributes state and Federal funds, evaluates and assesses programs, provides technical assistance and training for a statewide system of Area Agencies and service providers that deal directly with the older citizens of Montana.

The Aging Services Bureau's yearly operation is defined and guided by an annual State Plan for Aging Services. This plan is adopted and put together through the input and cooperation of the Area Agencies on Aging, a 21-member statewide Advisory Council, and a public hearing held for citizen participation.

3. The Local Level: Area Agencies on Aging, of which there are seven in Montana, are the "grass roots" administrators of programs and services for seniors. The Area Agencies, mandated by the 1973 amendments to the Older Americans Act, are charged with the continuing process of planning services for older persons at the local level, coordinating the actual delivery of needed services, full utilization of existing resources, and development of new or additional resources. Each of the seven Area Agencies in this state is responsible for a specific geographic area of the state.

In the planning process for a years service activities, objectives are established by the Area Agencies. The Areas individually develop service plans that are submitted to and approved by the Aging Services Bureau. From the seven Area Plans is generated a State Plan that is submitted to and approved by the AOA via the Denver Regional Office.

Through this process and with the interaction and coordination of all three levels (Federal, State and Local), the "Aging Network" provides and coordinates services designed to enhance and improve the lives of Montana's senior population.

OLDER AMERICANS ACT

TITLE III - F.Y. 1979

For the period from October 1, 1978 to September 30, 1979, the state of Montana has been allocated $957,350 under Title III of the Older Americans Act, Grants for State and Community Programs on Aging. Of these funds, $200,000 are designated as administrative funds for the Aging Services Bureau. The remaining $757,350 is apportioned to the seven (7) Area Agencies for administration and program provision. 15% of the total for the A.A.A. is allowed for administrative purposes and must be matched on a 75/25 basis. Of the $757,350, the 15% allowed ($113,602) is divided equally between the Area Agencies.

The remaining program funds are allocated on the basis of a formula. The formula is based on three aspects of the senior population within each area: Total 60+ population, total 60+ low-income population, and total 60+ minority population. (Program funds are matched 90/10).

For each Area Agency on Aging the F.Y. 1979 fund allocation is as follows:

AREA AGENCY	ADMINISTRATION	PROGRAM	TOTAL
I	$ 16,228	$ 86,597	$102,825
II	16,229	118,140	134,369
III	16,229	116,140	132,369
IV	16,229	64,079	80,308
V	16,229	74,430	90,659
VI	16,229	133,102	149,331
VII	16,229	50,702	66,931
TOTALS	$113,602	$643,748	$757,350

OLDER AMERICAN ACT

TITLE IV-A - F.Y. 1979

The purpose of the Title IV-A Training Grant is to improve the quality of services for the aged and to help meet critical shortages of adequately trained personnel for programs in the field of Aging. This is to be accomplished by providing direct training to personnel of the Aging Services Bureau, the Area Agencies on Aging, and those individuals that work directly with Aging programs at the local level. In addition to this direct training, the Aging Services Bureau will contract directly with the post secondary institutions of Montana for training that is acceptable to the Bureau and the Area Agencies on Aging.

The total grant for the State of Montana is $30,000 with 2/3 ($20,000) to be used in conjunction with any agreement established with the post secondary institutions and the reamining 1/3 ($10,000) is to be used to provide the direct training of aging services personnel. In all instances, the training programs will be coordinated through a project director and 20% administrative costs will be deducted.

PROGRAM BUDGET

	TOTAL	20% ADMINISTRATION	TRAINING COSTS
Contracted Training (Post Secondary Institutions)	$20,000	$4,000	$16,000
Direct Training	10,000	2,000	8,000
TOTALS	$30,000	$6,000	$24,000

OLDER AMERICAN ACT

TITLE V - F.Y. 78

The national appropriation for Title V, Multipurpose Senior Center Grants, has been increased from 20 million to 40 million dollars. The minimum state allocation has also been doubled, from 100 to 200 thousand dollars. From this, the State of Montana has just been informed that the F.Y. 78 funds are available to the individual states and Montana's share is $200,000.

As with F.Y. 77 funds, the entire amount has been allocated to the seven area agencies on aging under the 60/20/20 formula used with Title III. The individual area allocations will be contracted for with line-item budgets for all expenditures that will include the 25% of total cost match requirement.

The individual area allocation are:

AREA	TITLE V ALLOCATION
I	$ 26,904
II	36,704
III	36,256
IV	19,908
V	23,124
VI	41,352
VII	15,752
TOTALS	$200,000

OLDER AMERICAN ACT

TITLE VII - F.Y. 1979

Nutrition Program for the Elderly, Title VII, is designed to assist in meeting the nutritional needs of America's citizens that are sixty years of age and older. The program provides permanent nutrition projects and the supportive services to insure maximum effectiveness of the meals provided.

There are eight individual Title VII Nutrition Projects in the state of Montana. For F.Y. 1979 the funding for these nutrition projects will be $230,052 more than F.Y. 1978 (from $1,007,488 to $1,237,500). In allocating the funds, for the first time since Title VII was established in Montana, the initial stages of adjusting the allocations to the Title III formula are being established. This is being done without any decrease in the existing funding levels of each project.

The increase in funds for the state of Montana will be used to adjust the projects funds and service areas so that the entire state is covered. The push from the Federal Office on Aging is for complete coverage and equitable distribution.

Each project will receive the same amount as the previous year and a proportionate share of $92,020 (40% of increased funds). The remaining $138,032 (60%) will be used to adjust upward any project that is being funded below the level called for under the Title III formula. This, of course takes into consideration expected service area and the population make-up of that area.

F.Y. 79 funds will be allocated in the following manner (matching requirements are 90/10):

NURSING HOME OMBUDSPERSON PROJECT

This project establishes a statewide network, in cooperation with existing Information and Referral Technicians, to provide contact with all nursing homes and provide grievance procedures to all staff and clients of these establishments. Monthly contact of all nursing homes in the state will be accomplished either by one of four (4) Ombudspersons or an Information and Referral Technician. In all cases, the individual visiting a facility will submit an activity report to the Aging Services Bureau that relates to each visit.

The annual budget categories for existing funds are:

Salary:	$160 per month (half-time) 12 months @ $160 =	$ 1,920
Mileage:	900 miles per month @.15 per mile. 12 months @ 900 miles @.15 =	$ 1,296
Per Diem:	4 days per month @$26.00 per day 12 months at 4 days/month @ $26.00 =	$ 1,248
	TOTAL	$ 4,464
4 Ombudspersons* @ $4,464 each		$17,856
Supplies (Expendable)		144
	GRANT TOTAL	$18,000

*Ombudspersons are to be employees of individual Area Agencies on Aging and grant disbursement will be handled by Rocky Mountain Development Council.

ADMINISTRATION ON AGING

LEGAL SERVICES GRANT

This project was designed to increase the availability of legal services to the senior citizens of Montana. The task will be accomplished through a contract with Montana Legal Services Association. The methods to be used to reach the above stated goal are:

(1) Determine high incidence legal problems that occur among senior citizens.

(2) Determine which high incidence areas should receive special attention and develop methods of approach to ease the handling of such problems.

(3) Disseminate developed materials to all appropriate and/or concerned individuals.

(4) Assist the Aging Services network with the development and expansion of paralegal and Legal Services to the seniors of Montana.

Legal Services Budget:

Entire amount of grant is to be contracted with Montana Legal Services Association to provide the services mentioned.

CONTRACT TOTAL	$26,800

SOCIAL SECURITY ACT

TITLE XX - F.Y. 1979 (State Fiscal Year)

The Aging Services Bureau will receive $523,000 of the Title XX funds for State F.Y. 1979. These funds are for the provisions of Nutrition, Transportation, Homemaker/Chores, and Minor Home Repair services to Montana's senior citizens who qualify under the eligibility guidelines for Title XX. The funds have been allocated to six of the seven Area Agencies on Aging on the same formula as used for Title III of the Older Americans Act. Individual area allocations are as follows:

AREA I*	AREA II*	AREA III*	AREA IV	AREA V	AREA VI*
$84,098	$102,717	$116,630	$51,868	$60,158	$107,529

*These areas contain Reservations and equitable portions have been designated to be used for services on the reservations.

On a statewide basis, including the 25% total cost match required by Title XX, the following amounts have been preliminarily budgeted for the four services:

	TITLE XX	MATCH	TOTAL
NUTRITION	$258,983	$ 86,328	$345,311
TRANSPORTATION	$ 85,313	$ 28,438	$113,751
HOMEMAKER/CHORE	$123,466	$ 41,155	$164,621
MINOR HOME REPAIR	$ 55,238	$ 18,412	$ 73,650
TOTAL	$523,000	$174,333	$697,333

MONTANA INFORMATION/REFERRAL AND OUTREACH

FOR SENIOR CITIZENS

The key to the Information and Referral Program in Montana is a toll-free incoming only telephone to the Governor's Office through his Citizen Advocate. This initial connection gives the program the greatest strength that a state program can have. The Citizen Advocate transfers all calls from, or dealing with, persons 55 and over, on the direct trunk line to Aging Services Bureau. Aging Services is a part of Community Services Division with the Department of Social and Rehabilitation Services. Manning the toll-free telephone within Aging Services are two retired persons working four hours per day each. These two Referral Technicians are under the supervision of Aging Services Bureau, but they are hired by, and responsible to, the Area Agency on Aging responsible for the county in which state government is located. Each area agency in the state has an adequate number of Referral Technicians to make personal contact on followup of any persons who utilize the Information and Referral network.

The major purpose of the Montana Information and Referral is not to deliver the services requested, but to see that the agency responsible for service delivery does its job. It is very difficult for an agency to not respond to a specific individual with a specific problem when they know that a community advocate is going to check to see that attention was addressed to the client. A very high percentage of inquiries are with respect to a problem or mix-up with Social Security benefits. The working relationship with the Information and Referral network and SSA has developed to a point that most difficulties are resolved within hours. Prior to this network and the working relationship, some cases were unresolved for years.

Outreach is accomplished by the referral technicians throughout the state "mingling in the community". These technicians attend senior citizens meetings, nutrition sites, county council on aging meetings and any other groups of citizens that may be composed of older Montanans or be interested in this segment of the population and tell them of the Information and Referral Network. The program is designed to use older people in the network and establish one-to-one, person-to-person contacts. This prevents the program from working in generalities and restricts it to solving one persons problems at a time.

For a control system, primarily to keep everyone in the network informed of the same thing at the same time, and to assure that no "cases" are lost, the initial call is written up on color coded, three copy paper. One copy for the state office, one for the area agency and one for the local referral technician. When the local technician follows up on the action taken and determines if any further difficulties are present, they fill out the followup form. This form is also color coded with three copies. These copies are sent back, one for the technician, one for the area agency and one for the state office. When you have the two proper colored reports in your hands, the case is complete. Call, action, followup and close. It works.
